

Healing Touch Integrative Care Program

Healing Touch Integrative Care Program

The Healing Touch Integrative Care Program is dedicated to increasing the well-being of patients and caregivers through the use of integrative care. We partner with you to help you achieve your goals.

Patient Goals

- Pain management and mood enhancement
- Improve patient satisfaction
- Increase the feeling of receiving personalized care
- Accelerate patient healing
- Educate and empower patients with effective self-care

Nurse Goals

- Non-invasive methods to relieve patients' pain and anxiety
- Increase patient care skills and options
- Apply holistic nursing theory to patient care
- Deepen the caring relationship with patients
- Receive quick and effective relief for stress, tension and pain on the job
- Receive meaningful continuing education
- Feel valued and invested in as an employee

Administrative Goals

- Increase HCAHPS patient satisfaction scores
- Improve pain management
- Accelerate patient healing

- Raise nurse job satisfaction and retention
- Meet and improve JCAHO, Magnet and Planetree standards
- Offer nurses therapies to reduce their stress and pain, and help them feel cared for and invested in
- Seamlessly create an integrative care program that increases patient care options
- Invest in nurse continuing education
- Improve reputation in community

Personalized Service

- Healing Touch training for your nurses and healthcare professionals
- Consultation for setting up new program policies and procedures
- Templates for consistent implementation and communication of results
- Support for your Healing Touch students and practitioners
- Sourcing Healing Touch Certified Practitioners and Instructors to help you meet needs
